

Papervisor

App Store & Google Play Console Submission Playbook

Target: **Android & iOS Release** Flutter: **3.44.1** Dart: **3.12.1** Version: **1.0.0 (Build 1)** Document Version: **Final Verified Edition**

STATUS LABELS:

✓ CODEBASE CONFIRMED

★ PLATFORM RULE

🔴 ACTION REQUIRED / BLOCKER

⚠️ NEEDS INPUT

💡 RECOMMENDATION

📄 COPY TEMPLATE

🔴 Current Submission Blockers (Resolve Before Release)

These issues were identified during code inspection and will cause store rejections or runtime crashes if not corrected prior to release compilation:

Blocker Item	Platform	Codebase Root Cause	Exact Fix Required
Default Package ID BLOCKER	Google Play App Store	<code>applicationId = "com.example.papervisor"</code> in <code>build.gradle.kts</code> & <code>project.pbxproj</code>	Replace with unique production package ID (e.g. <code>com.papervisor.app</code>) in both Android and iOS configurations.
Missing Internet Permission RUNTIME BLOCKER	Android	<code>INTERNET</code> permission only present in <code>debug/AndroidManifest.xml</code> ; missing in <code>main/</code> .	Add <code><uses-permission android:name="android.permission.INTERNET" /></code> to <code>android/app/src/main/AndroidManifest.xml</code> .
Account Deletion Missing APPLE GUIDELINE 5.1.1(V)	Apple & Google	App allows user registration in <code>AuthService.dart</code> but has no delete account button or endpoint.	Add in-app "Delete Account" flow calling backend removal endpoint + provide public web deletion request link.
Debug Signing in Release BUILD BLOCKER	Android	<code>buildTypes.release</code> uses debug signing configuration.	Generate production <code>upload-keystore.jks</code> and configure production signing in <code>android/app/build.gradle.kts</code> .
iOS Photo Library String APP REVIEW RISK	iOS	<code>file_picker</code> and <code>image_cropper</code> used for logos; <code>NSPhotoLibraryUsageDescription</code> missing in <code>Info.plist</code> .	Add <code><key>NSPhotoLibraryUsageDescription</key></code> with purpose description in <code>ios/Runner/Info.plist</code> .
Privacy Policy URL NEEDS INPUT	Both Stores	Required web URL not yet provided in store declarations.	Host and link an active HTTPS privacy policy covering user accounts, PDF uploads, and AI inference data handling.
Reviewer Demo Account NEEDS INPUT	Both Stores	App gates all screens behind login gate.	Provide active test credentials (<code>appreview@papervisor.com</code>) pre-loaded with sample subjects/books in review notes.

1. App Identity & Configuration

Console Field	Project Value	Classification	Notes / Evidence
App Name	Papervisor	CODEBASE	CFBundleDisplayName in Info.plist; android:label
Android Application ID	com.example.papervisor (Must Change)	ACTION REQUIRED	Set in android/app/build.gradle.kts line 19
iOS Bundle Identifier	com.example.papervisor (Must Change)	ACTION REQUIRED	Set in ios/Runner.xcodeproj/project.pbxproj
Version Name & Build	1.0.0 (Build Number: 1)	CODEBASE	version: 1.0.0+1 in pubspec.yaml
Flutter / Dart Version	Flutter 3.44.1 / Dart 3.12.1	CODEBASE	Active environment runtime
Android SDK Versions	Min: 21 • Target: 34/35 • Compile: 37	CODEBASE	Verified in android/app/build.gradle.kts
Primary / Secondary Category	Education / Productivity	RECOMMENDATION	Assessment & question bank generator
Monetization	Free (Zero IAP, Zero Subscriptions)	CODEBASE	No billing SDKs in pubspec.yaml
Offline Support	NO (Internet mandatory)	CODEBASE	Requires connection for backend & AI synthesis
Login Required	YES (Mandatory JWT authentication)	CODEBASE	_AuthGate in lib/main.dart

2. Data-Flow Architecture (First-Party vs. Third-Party)

Where data travels when an educator uses Papervisor. Declarations in Google Data Safety and Apple App Privacy must match this data journey:

Data Element	App	Papervisor Backend	Google Gemini AI	Tavily Search API	Retention & Storage
Name & Email	Collected	Transmitted & Stored	Not Sent	Not Sent	Stored securely in backend database
Password	Collected	Hashed & Stored	Not Sent	Not Sent	One-way hashed/salted on backend
Auth Tokens (JWT)	Stored Local	Validated on API calls	Not Sent	Not Sent	Encrypted in Android KeyStore / iOS Keychain
Textbook Chapter PDFs	Selected	Uploaded via Multipart	Not Sent	Not Sent	Stored on server for question synthesis
Custom Logos / Diagrams	Selected	Embedded in Saved PDF	Not Sent	Not Sent	Saved within PDF document files
PYQ Search Queries	User Types	Not Sent	Prompt text sent for clarification	Search query sent to search endpoint	Ephemeral API session processing
Downloaded PYQ PDF Bytes	Downloaded	Not Sent	Inline PDF bytes sent for verification	Not Sent	Evaluated ephemerally; saved in local SQLite if starred
Analytics / Ad Tracking	None	None	None	None	Zero third-party tracking or advertising SDKs

3. Store Listing Copy (Ready to Paste)

APP NAME (GOOGLE PLAY & APPLE APP STORE)

MAX 30 CHARS • ACTUAL: 29

Papervisor — AI Exam Creator

SUBTITLE (APPLE APP STORE)

MAX 30 CHARS • ACTUAL: 28

Exam Papers, Rubrics & PYQs

SHORT DESCRIPTION (GOOGLE PLAY CONSOLE)

MAX 80 CHARS • ACTUAL: 76

Create balanced, curriculum-aligned exam papers & rubrics in minutes with AI.

FULL DESCRIPTION (GOOGLE PLAY & APPLE APP STORE)**MAX 4,000 CHARS • ACTUAL: ~1,850**

Papervisor is an intelligent exam paper generation and assessment suite built for educators, academic department heads, schools, and tutoring institutions.

Streamline your exam creation workflow. Papervisor allows you to transform curriculum textbooks and chapter PDFs into balanced, structured examination papers with custom blueprints and rubrics.

CORE FEATURES:

- Chapter-Grounded Question Synthesis

Upload your curriculum textbooks and chapter notes. Papervisor uses your source materials to draft questions tailored to your syllabus topics.

- Granular Blueprint & Weightage Control

Customize every parameter of your exam: total marks, time limit, difficulty distribution (Easy / Medium / Hard percentages), numerical-to-theory ratios, and exact chapter-wise mark distributions.

- Visual Designer & Layout Editor

Preview your exam paper in real time. Add institutional headers, watermarks, custom instructions, and section headers (Section A: MCQs, Section B: Short Answer, Section C: Long Problems). Edit question text, replace choices, or re-order sections.

- Print-Ready Vector PDF Export

Export formatted PDFs with integrated answer keys and marking schemes. Print directly from your mobile device via system printing or share via email and cloud storage.

- Previous Year Papers (PYQ) Explorer

Search and inspect past year board and entrance examination papers (CBSE, ICSE, JEE, NEET, GATE, State Boards) with automated query refinement and document inspection.

- Organized Academic Workspaces

Organize teaching materials by Academic Year, Class/Grade, and Subject. Manage multiple question banks and book chapters from a single workspace.

Designed to assist educators with academic integrity at its core. Your documents and test banks remain private to your educator account.

KEYWORDS (APPLE APP STORE CONNECT) MAX 100 CHARS • ACTUAL: 99 (COMMA-SEPARATED, NO SPACES)

exam maker,test generator,question paper,cbse,jee,teacher tools,curriculum,rubric,ai quiz,assessment

4. Google Play Console Form Answers

A. Content Rating Questionnaire (IARC)

Questionnaire Item	Answer	Reason / Project Evidence
Violence, Sexual Content, Drugs, Gambling	NO	Academic utility application; zero adult or restricted themes.
User Interaction / Direct Messaging	NO	No social networking, public feeds, or direct messaging between users.
Physical Location Sharing	NO	Zero GPS or geolocation tracking code in project.
In-App Purchases / Digital Goods	NO	No payment processing or in-app purchase libraries.
Unrestricted Web Access	NO	Does not contain a general web browser.

B. Target Audience & App Declarations

Declaration Field	Answer	Details
Target Age Group	18+, 16-17	Designed for teachers, professors, and secondary/tertiary students.
Unintentionally Appeal to Children?	NO	Formal educational assessment UI; dark theme; curriculum parameters.
Contains Ads?	NO	Zero ad SDKs in pubspec.yaml.
Uses Advertising ID (AAID)?	NO	<code>com.google.android.gms.permission.AD_ID</code> is not declared.
Generative AI Disclosure	YES	Acknowledge use of Google Gemini API for drafting questions.
Government, Health, Financial, VPN	NO	None of these restricted categories apply.

C. Google Play Data Safety Form Mapping

Data Type	Collected?	Shared?	Purpose	Required?	Storage Details
Name	YES	NO	Account Management	Required	Stored on Papervisor backend DB
Email Address	YES	NO	App Functionality, Auth	Required	Stored on Papervisor backend DB
User IDs	YES	NO	Account Management	Required	Stored in JWT token payload
Files & Documents	YES	NO	App Functionality	Required	Uploaded chapter PDFs for question synthesis
Photos & Images	YES	NO	App Functionality	Optional	Custom exam logos embedded in generated PDFs
Search Queries	YES	YES (API)	App Functionality	Optional	Sent to Tavily/Gemini ephemerally for PYQ searches

Data Safety Global Questions:

- Encrypted in transit? → **YES** (All network requests use HTTPS).
- Data deletion mechanism? → **YES** (Once account deletion button/URL is live).
- Shared with third parties? → **YES** (Tavily search API and Gemini AI inference during active sessions).

5. Apple App Store Connect Form Answers

A. App Privacy (Nutrition Labels)

Apple Category	Collected?	Linked to User?	Tracking?	Purpose	Evidence
Contact Info (Name, Email)	YES	YES	NO	App Functionality	AuthService.dart login/registration
User Content (Files & Photos)	YES	YES	NO	App Functionality	Textbook PDFs & exam header logos
Identifiers (User ID)	YES	YES	NO	App Functionality	Internal user account ID
App Tracking Transparency (ATT)	NO	NO	NO	N/A	Zero cross-app tracking or ad networks

B. App Review Information & Credentials

MANDATORY REVIEWER ACCOUNT: Apple reviewers require working credentials to review the app. Gated apps without test credentials will be rejected immediately under **Guideline 2.1 (App Completeness)**.

APP REVIEW DEMO CREDENTIALS

ENTER IN APP REVIEW INFORMATION SECTION

Sign-in Required: YES
Username: appreview@papervisor.com
Password: [ENTER_SECURE_DEMO_PASSWORD]

Notes for Reviewer:

"This test account has been pre-configured with sample subjects (e.g. Physics) and uploaded textbook chapters so you can immediately test the 4-step exam paper generator wizard, visual layout editor, and vector PDF export without needing to upload external files."

6. Testing Workflows & Platform Rules

Google Play Closed Testing (Personal Accounts)

Platform Rule: Personal accounts created after Nov 13, 2023 must run a closed test with at least **20 opted-in testers for 14 continuous days** before production access can be requested.

TESTER INVITATION MESSAGE (WHATSAPP / EMAIL)

COPY & SEND TO TESTERS

Hi [NAME],

I am preparing to release Papervisor, an AI-assisted exam paper creation tool for educators and students.

Google Play requires our app to be tested by 20 opted-in testers for 14 continuous days before it can be made publicly available.

HOW TO TEST:

1. Join our Google Testing Group:
[GOOGLE_GROUP_URL]
2. Accept the web opt-in invitation:
[https://play.google.com/apps/testing/\[PACKAGE_ID\]](https://play.google.com/apps/testing/[PACKAGE_ID])
3. Install the app on your Android device via Google Play.

Please keep the app installed for 14 days and test creating an exam paper or searching for past year papers. If you encounter any bugs, reply directly to this message.

Thank you for your help!

Apple TestFlight

Unlike Google Play, Apple TestFlight does **not** require 20 testers for 14 continuous days. Internal testing is available immediately. External beta testing requires standard automated Beta App Review (typically approved within hours).

7. Fast Copy-Paste Cheat Sheet

QUICK-FILL DASHBOARD (KEEP BESIDE CONSOLE)

ALL ESSENTIAL FIELDS

```
APP NAME: Papervisor – AI Exam Creator
SUBTITLE (iOS): Exam Papers, Rubrics & PYQs
VERSION: 1.0.0
BUILD: 1
PRIMARY CATEGORY: Education
SECONDARY CATEGORY: Productivity
APP TYPE: Application (Non-Game)
MONETIZATION: Free (No IAP, No Ads)
LOGIN REQUIRED: Yes
DEMO USERNAME: appreview@papervisor.com
DEMO PASSWORD: [DEMO_PASSWORD]
MARKETING URL: https://landing.100.60.191.242.sslip.io/
SUPPORT URL: https://landing.100.60.191.242.sslip.io/#faq
PRIVACY POLICY URL: [PRIVACY_POLICY_URL]
CONTAINS ADS: No
USES ADVERTISING ID: No
DATA COLLECTED: Name, Email, Uploaded Files/PDFs, Custom Logos
DATA ENCRYPTED: Yes (HTTPS / TLS)
EXPORT COMPLIANCE (iOS): Exempt (ITSAppUsesNonExemptEncryption = false)
CONTENT RATING: Everyone / PEGI 3 / 4+
```
